

for goodness sake

Introductory Limited Time Offer

"In their early years, children do not intentionally misbehave. They react to situations based on the skills they have at their disposal."

for goodness sake, an applied approach to behavioural intervention for young children, is a resource for early childhood educators, community health nurses and teachers.

Through its interactive CD format, **for goodness sake** combines training along with a system to guide practitioners and parents in developing action plans to address challenging behaviour and support pro-sociality.

Features include video tips from professionals who specialize in child development and sound, researched practices and strategies.

Featuring: **Dr. Jean Clinton**, Psychiatry and Behavioural Neurosciences, McMaster University
Dr. Larry Tuff, McMaster Children's Hospital, Chedoke Child and Family Centre
Dr. Tracy Vaillancourt, Psychology, Neuroscience and Behaviour, McMaster University

Video Host: **Paula Todd**

*The cost of **for goodness sake** is \$250.00.
The benefits are priceless!*
