

Wesley Urban Ministries has a vision of a community where justice and compassion guide the way we live, where all members are treated with respect and dignity.

Wesley supports Hamilton's aspiration to be the **Best Place to Raise a Child** and we are seeking compassionate individuals to work with our community's children in our childcare centre.

Our ECE's warmly and respectfully welcome and interact with our culturally diverse clients, supporting the program with educational and developmentally appropriate activities to encourage social, emotional and intellectual growth.

Creating meaningful play with the children is only part of this relief position; working within the Centre's team environment as well as furthering the program's initiative by working collaboratively with community partners are also key.

For more information on our Child, Youth and Family Programs, please visit our website at
